

## THE EMT PROGRAM

Medstar offers a 240 hour EMT course which includes field clinical training in our local hospitals as well as on our ambulances.

Upon successful completion of our EMT course students are eligible to take the National Registry of Emergency Medical Technician (NREMT) exam. After successful completion of the NREMT exam students become eligible to apply for State of Michigan licensure. Students in good standing are eligible for early application and interview process for employment by Medstar Ambulance. If selected potential applicants will have their NREMT exam paid for and be able to begin their employee orientation while awaiting their license.

Graduates of Medstar's EMT program are eligible to test for their EMT license and go on the Medstar Paramedic Program. Students hired by Medstar on either a part-time or full-time basis will receive their Paramedic Program free of charge as part of their employee benefit program.

## MAKE MEDSTAR YOUR SCHOOL/CAREER CHOICE

Whether you want to go on to become a firefighter, nurse, physician assistant or physician Medstar offers an excellent career path that allows you to achieve your dreams while earning a paycheck as you complete your studies. Students who successfully complete our Paramedic program are eligible for our matriculation agreement with Macomb Community College to apply your paramedic course towards an Associate's Degree.

## OUR INSTRUCTORS

Medstar instructors are trained licensed professionals that offer not only classroom knowledge but also years of experience as EMT's, Paramedics and Fire Fighter's. Medstar education continually develops the curriculum and training to offer new advancements in EMS education which is critical to the success of our students.
